

PRESS RELEASE

ECO CONCEPTS, INC., best known for its' **GREEN CONCEPTS** brand of proprietary **Safe and Superior cleaning solutions**, has announced the opening of a “new” N. American Research & Development facility in Las Vegas, NV. Gil Oren, President/CEO of Eco Concepts, Inc., will be flying to Las Vegas for the grand opening on April 27. Mr. Oren in a brief statement said, “This is a very exciting time for us. We at Eco Concepts embrace this type of facility in Las Vegas for refining, designing, testing, and proving our existing and new technology. The Las Vegas facility will be the perfect compliment to our newly established research and development entity in Johannesburg, South Africa. I am confident that the new facility will help further our efforts to provide cutting-edge, effective, innovative, user-safe and environmentally friendly cleaning technology to a multitude of industries and users.”
